

Thermal Imaging

**Don't gamble with your business,
Its just not worth it!**

Protect your operations from breakdown & downtime

- 1 - Unique reporting system
- 2 - Pin point faults quickly and accurately while machinery is operating
- 3 - The perfect solution to your preventative maintenance schedule
- 4 - Find the weak link in your plant and work place
- 5 - Schedule repair when machinery is not in use or next scheduled shut down
- 6 - Competitive rates
- 7 - 24 hour service 7 days
- 8 - 28 years experience in fault finding on electrical and mechanical equipment

Using the latest thermal imaging technology we can identify "Hot Spots" before they turn into serious fire hazards and breakdown of machinery!
